

## Need a special gift for someone you love?

### How about a one of a kind Pet Portrait by Arlene Weinstock!

Mac – 5"x5"

#### How I work

I will create an original color portrait of your pet from pictures you provide. I need at least 5 pictures – either printed photographs or digital files. The pose comes from one of your pictures and the others provide detail information. I rely on you to tell me which of the photos best captures your pet's color, since color varies in photographs. I may ask for other details about your pet's appearance.

I can take photographs of your pet for an additional fee of \$100 per hour, if you don't have pictures for me to use.

Leo – 5"x5"

Each unique colored pencil portrait will reflect your preferences for picture content and size. I can focus on your pet's face and head (as the three sample dog portraits show) or include more of the body and surroundings (as the cat portrait shows). We'll discuss what you have in mind before I get started.

The finished work is ready for you to matt and frame or a matt and frame can be added for an additional fee.

#### What it costs

Small Portraits:

Size range 5"x5" to 10"x12"

Price range– \$250 -- \$500

Larger formats and full body compositions – ask me for a quote

Bella – 5"x5"

#### Getting started

Once I receive the photos of your pet, I provide a cost for the work and an estimated completion date. Half the cost of the portrait is required before I begin work.

See examples of my artwork on my website: [www.arlenew.com](http://www.arlenew.com)

I also accept commissions for:

House portraits

**NEW** Landscapes from your vacation photos
